**SOBeFiT Magazine** recently commissioned Romero Britto to design a set of six sculptures and a painting for SOBeFiT Magazine's Fittest Person of the Year Contest. The art is one-of-a-kind and inspirational as it was created with health and fitness in mind. While creating the art, Romero Britto actually lost around 20 pounds because he was so inspired by the contest and what it meant to the people in South Florida. Beginning Sept. 2, voting will open to everyone in the country to choose the final male and female to win the contest. The winners will be on the cover of SOBeFiT's Nov/Dec issue.
